

WHY JOIN MTA

Let's talk about why you should become an MTA member. As a member, you will benefit from the many services we offer and from the trust Kiwi motorists place with us due to the high standards our members need to uphold. Joining MTA can make life easier for you. MTA offers our members a range of products and services to help reduce operating costs, keep abreast of technology, and tackle employment and legal issues. To become a member, either fill out the interest form on our website (mta.org.nz) or give us a call on 0800 00 11 44. One of our friendly team will be in touch with you.

OUR BENEFITS

Provide regional training courses and subsidies for WoF, first aid, technical courses and more

We partner with leading suppliers and companies to provide members with discounted products and services

Promote MTA Gift Vouchers and Gift Cards that encourage motorists to use an MTA member for all their vehicle needs

Get advice on consumer law and help to resolve any customer disputes through our free mediation service

Support members to attract and retain talent, and operate successful, compliant, safe and profitable businesses

Get help with staff and employment, from recruiting and retaining staff through to performance management

Access health, safety and wellbeing tools that will help your business stay compliant and safe and staff are happy and well

Tap into the expert industry knowledge, advice, and advocacy that our experienced Sector Managers provide

Provide members with access to the latest industry, business information and resources such as benchmarking info on wages and charge-out rates

WHAT OUR MEMBERS DO

Founded in 1917, MTA exists to promote vehicle safety and sustainability, and represent NZ's automotive businesses. Today, more than 3,800 MTA members take care of Kiwi's complete motoring needs, from importing through to scrapping. Not every business has what it takes to be an MTA member - we set high standards that mean our members are amongst the best qualified and most successful automotive businesses in the country.
